

IT'S TIME FOR

Stressless®

It's about time.

Stress is an unavoidable part of every day lives. Our days are busily packed with the essential tasks that life invariably brings. We work, clean, exercise, travel whilst trying to find time for the important people in our lives. No matter where we are in life it can seem that we are always chasing time. Indeed stress itself has been named the health epidemic of the 21st century by the World Health Organization. Have we forgotten how to relax? Are we so busy living our lives that we have stopped listening to our bodies, telling us to calm down and just put our feet up?

At Stressless® we believe in a balanced life, one where you can have an active lifestyle, whilst making room for relaxation and calmness. A life where you from time to time can just sit down, recharge and gather the energy you need to face whatever life throws at you.

It's time to take a break.

It's important to create a sanctuary in your home, a place where you can forget about all the must-do's and just be. Stressless® furniture is designed with your body in mind. That's why we make the most comfortable chairs, sofas and dining chairs in the world. Our furniture helps you to sit down and relax in the most comfortable way possible - you just have to make the space in your home for that to happen!

Stressless® Tokyo High with footstool

Norwegian quality since 1934

We are Located in a small town in western Norway.
A beautiful place in a fjord surrounded by majestic mountains.
This scenery is where we find the inspiration to our unique
designs. Craftsmanship and the love of furniture has been
passed through generations, making our chairs the most
comfortable in the world.

Designer: Rikke Wold

It's time for comfort.

We aspire to create furniture with unparalleled comfort. With a highly skilled team of designers, engineers and skilled furniture makers we bring a fusion of expertise. Through collaboration a design can surpass expectations. Comfort is one thing we never compromise on and we promise you'll appreciate the difference of how a genuine Stressless® feels.

We have a long history in challenging the conventional way of making furniture. Understanding the science of comfort and movement fueled our innovative spirit and desire to design the most comfortable, unique furniture in the world. The result is a perfect combination of functionality and design with instant comfort.

Engineer: Henrik Birkelund

With a human touch.

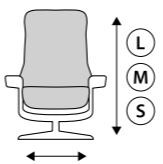

At Stressless® we've built on our experience since 1934. Our heritage in furniture making combined with innovative production methods ensuring a high level of quality.

Robots usually take on repetitive operations. Their strengths lie within the precise functions they perform - the same way and every time. But the human touch and skilled craftsmanship is still highly important for the delicate details and solutions that are tailor-made for you. We use only the best materials and environmentally friendly processes to provide you with a product that will last for many years to come.

The innovators of Comfort™

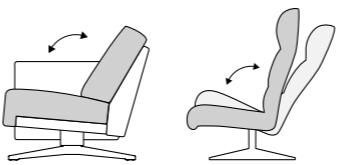

Under the surface of supple leather and cosy fabric lies true engineering genius. From multifaceted sets of springs to foam that contours to your body, every aspect contained within a Stressless® furniture is deliberately engineered, designed and assembled to bring you an unparalleled seating experience. Understanding the science of comfort and movement has fueled our innovative spirit and desire to design the most comfortable, unique furniture in the world.

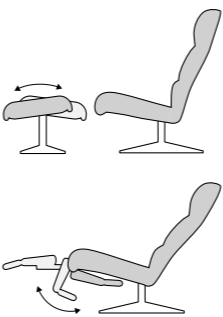

RIGHT SIZE MATTERS. Optimal comfort is also about correct size. Most of our recliners therefore come in multiple sizes for you to find the perfect fit.

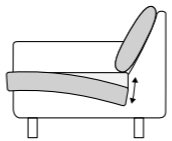

SUPPORT YOUR BACK. Whether you sit up or lie down, the Plus™System provides optimal comfort and support for your head and lumbar region. The sleep function is controlled with a simple hand movement to make your comfortable moments even better.

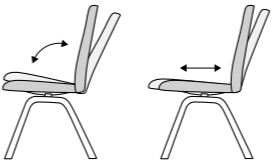

FIND YOUR BALANCE with BalanceAdapt™. Subtle rocking motions enhance the feeling of total balance. These movements usually make all the difference between a good seat and a fantastic one.

PUT YOUR FEET UP. Whether you choose a separate footstool or our unique LegComfort™ system it takes that feeling of comfort to new heights. A separate footstool with angle adjustments allows for maximum freedom of position according to your body size. The comfortable LegComfort™ system is elegantly concealed beneath the seat, but slight pressure extends it outwards, providing superlative support for your legs.

COMFORT IN ALL POSITIONS. When sitting down, ErgoAdapt™ provides a soft landing and total comfort with a seat that automatically adjusts to your position and smallest movements. When lying down, the sofa turns completely flat for best possible rest.

DINE IN COMFORT. Our dining chairs have a flexible seat and back, offering a variety of seat positions for increased comfort. This comfort enables you to maximize your quality time with friends and family.

DINING

It's time to sit down together.

The dining area is often the heart of your home. A place where you can enjoy the company of friends and family hour after hour.

Although enjoyable in spirit, these long hours can put a strain on your body. Your body's natural response is to move around. Stressless® dining chairs work with the body, not against it. With a flexible seat and back, they follow your body's movements in a unique way, and offer a variety of positions for increased comfort. With Stressless® dining chairs you can enjoy a long evening in comfort.

Stressless® Spice sofa
shown in Grace Dark Grey/Black

Stressless Toscana T100 table
shown in Black

The unique Stressless® dining chair responds to your body's movements and automatically adjusts the seat and back position, without levers or handles. When you lean forward, the seat angle reacts to your movement and immediately reduces the pressure under your legs while supporting your back. If you want to completely relax, you can lean back. The seat will slide forward so that you get a more open and comfortable sitting position.

The chairs are customisable and come with high or low back options in four seat cushion variants. They can all be customized in a myriad of fabrics and leathers. The chairs also have leg options in a variety of design in either wood or steel, to give you the opportunity to choose a design that fits to your style and home.

RECLINERS

It's time to relax.

We all need some personal space aside from the hustle and bustle of everyday life. Simply putting your feet up and having some you time has an incredible effect on reducing everyday stress and letting you recharge. Crafting comfort since 1934 has taught us that comfort is a highly personal experience. Many of our recliners come in three different sizes, so you can find your perfect fit - that's what sets Stressless® apart.

Support your back.

Whether you sit up or lie down, the Plus™System provides optimal comfort and support for your head and lumbar region. The sleep function is activated with a simple hand movement to make your comfortable moments even better.

It's time for me.

Style and comfort are individual. It's only natural since we all come in different shapes and sizes. Four different bases are available for our recliners, Classic, Signature, Star and Office Base. For soft rocking motions, the Signature and Star Base is optimal. Most Classic and Signature chairs come in three different sizes.

Put your feet up.

Whether you choose a separate footstool or our unique LegComfort™ system, it takes that feeling of comfort to new heights. A separate footstool adjusts to your movements for the ultimate comfort. The comfortable LegComfort™ system is elegantly concealed beneath the seat. A light touch press of a button elevates the concealed footrest, providing superlative support for your legs.

Paloma Copper/Chrome.

Stressless® Paris High back with
footstol shown in Paloma Copper/Chrome.
Stressless® Urban table

For that unique comfort, look and feel, there are three different backs to choose from on our Star Base. The high back heights models are just right for those relaxing moments, while the low back model invites you to gather friends and family around the living room table. The back with integrated neck rest comes with a back that is extra high and slim. For extra comfort a pillow is placed in a pocket at the neck and can be moved up and down for individual support. Our back with height-adjustable headrest enables you to increase the total length of the back up to 10 cm.

SOFA

It's time to lean back.

When buying a new sofa, many people will begin with design, colour, fabric and size. Aesthetics are important to us too, but great design is so much more than what meets the eye. Stressless® furniture goes beyond surface looks. We focus just as much on the functionality and comfort. How you sit, how the sofa adjusts to you and the feeling of complete well-being. This is what makes the difference between a good seat and a fantastic one.

To all our sofas you will find a matching Stressless® recliner to make your living room complete.

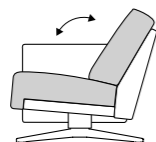

Stressless® Stella with headrest and **footstool** shown in Paloma Copper/ Matt Black.

Take comfort to another level.

Lean back, loosen your shoulders and feel how your whole body relaxes. Whether reading the paper, entertaining friends or just closing your eyes and taking a well-deserved time out, a good sofa will help you appreciate this valuable time even more. Enhance the feeling of total balance and subtle rocking motions with BalanceAdapt™. These subtle movements really heighten the comfort.

The modular sofas Stressless® Stella and Stressless® Bella adapt to both your living room and your seating position. The built-in BalanceAdapt™ system allows the seat to move with you. Recline, lean forward, lay down, put your feet up and feel how the soft and generous seat adapts to your every movement. When the occasion calls for just a regular sofa, you can easily lock the function to stop the seat from moving.

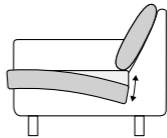

Stressless® Bella with headrest and **footstool** shown in Calido Dark Grey/Chrome with **Table Top Whitewash**

Stressless® Emma shown
in Silva Green/Chrome.

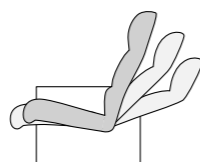

The Stressless® Emma sofas with ErgoAdapt™ adds optimum comfort and increased flexibility to your sofa solution. When sitting down, ErgoAdapt™ provides a soft landing and total comfort with a seat that automatically adjusts to your position. When lying down, the sofa turns completely flat for the best possible rest. Stressless® Emma gives you the opportunity to design your own style. Choose between three different armrests, two cushion designs and sizes and configurations that fit your home. Together with our options in legs and upholstery you have the opportunity to create a tailormade, unique design.

The Stressless® Arion adjusts to your body the moment you take a seat. The patented Plus™- and Glide™Systems provide the perfect seating angle for truly customized support and the ultimate individual comfort. Whether you sit up or lie down, the Plus™System provides optimal comfort and support for your head and lumbar region. Available in a three seat sofa, two seat and one seat. The Arion collection also comes with a choice of high or low back.

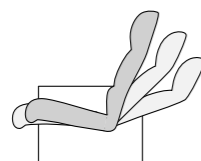

Visit stressless.com to see other Stressless(R) sofa designs with Plus- and Glide-systems.

RECLINER FUNCTIONS

All our recliners have the unique Plus System™ and Glide™ system so you can lean back and get a comfortable reclining position in an effortless manner. If you want to add the BalanceAdapt™ system or choose an integrated LegComfort™ over a separate footstool, you will be able to filter these choices.

HIGH OR LOW BACK

Much of our chairs come with both a high back and a low back option. With Stressless® the choice is yours.

● SOFAS

Customize your sofa to fit your living room. Choose between a wide variety of our sizes and modules.

SOFA FUNCTIONS

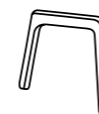

Choose the functionality that fits your needs. A fully reclining Plus System™ sofa, a tilting Balance Adapt™ sofa or a sofa with ErgoAdapt™ system that gives you that little extra comfort for both sitting and lying down.

ARMRESTS

Some of our designs allow you to choose between different armrests, all of them have various options when it comes to material and shape of legs. Together with our leather and fabrics you will be able to design a sofa according to your personal taste.

● DINING

Design your own dining chair by choosing between our many leg options in wood and steel. All of our dining chairs come with both high and low back, you can choose either or, or create your own mix. To make the dining area even more comfortable we have also designed Stressless® dining sofas.

All great choices, naturally.

Being one of the world's largest premium furniture manufacturers comes with responsibility. All our leather is manufactured in keeping with current laws and guidelines for animal welfare, health, safety and the environment. Here, we work alongside recognised international institutions to ensure that we are always up-to-date.

Our inspectors also take part in the leather selection process from our chosen tanneries. We maintain the highest of standards here, so that you always make a great choice – regardless of texture, softness, color and how you want the leather to look and feel. Today and tomorrow. For this, we offer many types of leather – from the most exclusive and delicate to the more robust quality. Your local Stressless® dealer can help you find the best choice for you..

Fabrics that stand the test of time.

Stressless® produce a wide variety of fabric options. It also comes down to personal choice. The large range allows you to get exactly what you want for that really bespoke feel. There are some choices to make: fabric, style, pattern, maintenance and how it will stand the test of time to name but a few.

Fabric is highly personal, but one thing is certain: nothing is left to chance in our textile collection. Before getting approved, each textile is put through some of the most rigorous quality tests in the industry. All textiles have to meet high demands of durability, light sensitivity, fire safety and environmental friendliness. Choose from a wide variety of colors and qualities, and find what goes with your interior style. Your Stressless® dealer will help you find your perfect fit.
